Institut Polytechnique de Paris

Telecom SudParis belongs to the Institut Polytechnique de Paris (IP Paris).

IP Paris brings together five prestigious graduate schools with one ambition: create a world-class institute committed to cutting-edge research and excellence in training. The five founding graduate schools embody experience, history and roots, positioning IP Paris as a leading educational institution, both in France and internationally.

The Institut Polytechnique de Paris (IP Paris) is a public higher education and research institution that is formed by five distinguished French engineering schools: Ecole Polytechnique, ENSTA Paris, ENSAE Paris, Telecom Paris and Telecom SudParis.

Paired together the five schools aim to share their long expertise and knowledge with two major goals on mind:
- ✓ Developing training programs of excellence.
- ✓ Offering to researchers a suitable environment to produce cutting-edge research.

Further Information   Visit the **Institut Polytechnique de Paris page**

Study Programs

Course Selection   Varies depending if student is classified as Exchange student or Double Degree seeking student.

Exchange Course Selection

2 options available. You can either:

Option 1: select a program and follow the courses as pre-assigned in the program. No course substitution.
Option 2: select your courses "*à la carte*" meaning you can select and mix courses from different programs as long as scheduling allows it.

Double Degree Course Selection

No course selection possible. Student follows the courses as assigned in the program in order to obtain degree. Student may be invited to select elective courses among a specific selection as defined by the program.

Course Catalogue   Visit the **course catalogue** for course description only. Make sure to check each program page to see when each course is available. Do not refer to the availability referred to on the course catalogue, as it may not be updated.

English Courses List   Only interested in English-taught courses, visit our latest **English courses list** for more information

Programs

Master's in Engineering
Masters of Science

Thesis   We also welcome our partner students to come to Telecom SudParis for a term to work on their Bachelor's or Master's thesis and earn ECTS credits towards it. This could be done in parallel to taking courses. The nomination and application process is the same as for traditional exchange. On the application form, students will need to provide information in regards to their thesis subject in order for us to make sure we can accommodate and supervise accordingly.

Please refer to our **Main Research projects page** for more information on the various fields of research available.

Note: this is unpaid and only to earn transferable ECTS credits.

Academic Information

Academic Calendar	**Master's in Engineering**	**Masters of Science**
	Fall term: early September – January	Fall term: early-September - February
	Spring term: early January – June	Spring term: early February - June

Orientation

New incoming student orientation is held about a week prior to the teaching starts. New incoming student must make sure to arrive on campus on time to attend orientation week. They will get to learn more about our campus, our teaching methods as well as other relevant information regarding their studies in France.

Exact dates will be confirmed later.

Examination Period

Fall term: one week in January
Spring term: one week in June
Note: earlier or extra examinations for exchange students cannot be arranged at TSP. Students need to attend exams at the official examination dates.
Dates may vary between program majors.

Grading and credits

The grading scale is 0-20 (0 is the lowest and 20 is the highest, with 10 being the lowest passing grade) or pass/fail.

Semester Workload

30 ECTS credits (= European Credit Transfer System)
1 ECTS per term is equivalent to 25-30 hours of studying. Telecom SudParis expects partner students to study full-time and pass courses with good grades.

Language of Instruction

French and English. TSP offers more than 11 Master's programs fully in English. Preferred language of instruction must be confirmed during application process.

FLE Courses

Complimentary weekly French language courses (FLE) are provided to international students during the semester. Intensive French session is also organized during late summer.

Note: To facilitate integration to France, FLE intensive program organized in September is mandatory to all non-French speaking dual degree-seeking students.

Academic Transcripts

Students can request a digitally signed transcript of records. Signed and stamped paper version can be provided to the student on request.

Application Deadline

Exchange

	Fall	Full year	Spring
Nomination Deadline	**May 15**		**October 15**
Application Deadline			

Double-Degree

Nomination Deadline	**March 15**
Application Deadline	

Application Procedure

Nomination & Application

Step 1: Nomination
The home institution must nominate the selected student(s) prior to the nomination deadline by using appropriate nomination form:

Term Nomination	Link
Fall	**Nomination Form**
Full year	
Double Degree	
Spring	**Nomination Form**

Step 2: Application
The nominated student(s) will be receiving an email notification containing the application link prior to the application deadline. The following documents will need to be provided during the application process:

- Online Form/Application
- One-page letter of motivation/statement of purpose (either in French or English)
- Curriculum Vitae (either in French or English)
- Copy of valid passport or National ID
- A study plan of the courses (exchanges only)
- A recent passport style picture
- Transcript of records (Bachelor grades for M1 program; Bachelor & Master 1 grades for M2 program) (either in French or English)
- Language proficiency certificate based on the type of courses or program (can be issued by home institution)
- Recommendation letter(s) (optional)

Application results   Application results will be ready usually within six weeks after the application deadline.

Exchange Admission Requirements   Students must have validated at least 120 ECTS for L3 level courses, 180 ECTS for M1 level courses and 240 ECTS for M2 level courses.

Double-Degree Admission Requirements   **Masters of Science:** students must have validated at least 120 ECTS for L3 program, 180 ECTS for M1 program and 240 ECTS for M2 program.

Master's in Engineering: students must have validated at least 180 ECTS for L3 program or 240 ECTS for M1 program.

Note: double-degree admission into M2 is not available.

Language Proficiency   Partner students need either an official language test certificate or a certificate from their home institution stating that the student has sufficient language skills to study in **English (min. B2 CEFR level)** or/and **French (min. B2 CEFR level)** in their selected program. For programs delivered in English, students whose mother tongue is English or who study in English-taught program in university are exempted from providing a language certificate.

Further information   Visit **https://www.telecom-sudparis.eu/en/international/incoming-students/**

Accommodation & Student Life

Accommodation Evry campus	The main housing provider is "La Maisel", conveniently located just within walking distance to our campus. Students must apply for housing themselves following the instructions provided by Telecom SudParis upon admission. *Note: The international relations office secures rooms at the Student Residence "La Maisel"* Restaurant and a cafeteria are available on campus. Additionally, local grocery stores and convenient stores are nearby.
Rooms/Apartments	It consists of a housing complex of 7 buildings with up to 890 beds ranging from single rooms to single studios, to flats.
Student Life	Students' well-being is important, that is why our campus offers various sport options (soccer, volleyball, tennis, gym, etc.), over 60 students clubs to get involved and so much more.
Further Information	Visit **"La Maisel" page** Visit our **Student Life page**
Accommodation Palaiseau campus	Several student-housing options are available including **ECLA**. For more information, please visit the **Student Life page** on the Institut Polytechnique de Paris website.
Living expenses	Based on current estimates, students need **1030€ euros per month** for living expenses. However, this number greatly vary according to the type of accommodation and life style.
Cost of Living in France	For your convenience, we have put together an estimated cost of living in France that should help you students unsure studying at Telecom SudParis is within their financial expectations.

Visa Requirements

EU Students	Citizens of EU members States, Iceland, Liechtenstein, Norway or Switzerland do not need a visa for France.
Non-EU Students	Non-European students must apply for long stay student visa (4 months to one year). • "*Etudes en France*" procedure (Studying in France). Students coming from a country concerned by this process will have to create an online account from the website "*Etudes en France*".
Further Information	Visit **Campus France page** for the "*Etudes en France*" procedure, including the list of countries.

- Students coming from a country not subject to this procedure must contact their local French Consular authorities.

Further Information	Visit the **France Diplomatie page** for the list of French Embassies and Campus France offices throughout the world.
Financial requirement	For visa issuance, French authorities require financial guarantee of 615€ per month (7380€ for a year).

Health Insurance

EU Students	Citizens of EU members States, Iceland, Liechtenstein, Norway or Switzerland are not required to enroll in the French National Healthcare IF they have a **European Health Insurance Card** (EHIC). The EHIC must be valid until the end of their stay. EHIC will allow students to get their healthcare expenses reimbursed under the same conditions as if they were in their home country. EHIC should be obtain prior to arrival in France. European students who do not hold an EHIC must apply for the French National Healthcare like other international students.
Non-EU Students	Enrollment to the French National Healthcare known as « *Sécurité Sociale* » is free and mandatory. This will allow students to benefit from partial refund on healthcare expenses, on average 60%. All the registration process is done online once visa is obtained.
Further Information	Visit the **Amelie page** and **Campus France page**
